

SMALL BRIDGE STRUCTURE PROJECTS

Future replacements (within the next 2-3 years):

Structure #327 along Cr. 46 west of Cr. 127 (New Paris area)

Structure #1000 along Cr. 42 west of Cr. 17 (Foraker area)

Structure #968 along Cr. 50 east of Cr.29 (New Paris area)

Small Structure No. 968: CR 50 over Worley Ditch

Elkhart County Project Manager: Tom Rushlow

Design: Elkhart County Highway

Information/Updates:

This is a 3-sided concrete box culvert located on CR 50 east of CR 29 that is scheduled to be replaced in 2011.

April 25, 2011

We are evaluating options for replacing this structure. The county's bridge maintenance staff will be constructing this project.

October 5, 2011

This structure was replaced this summer with an aluminum box culvert by the county bridge maintenance staff.
